CAREER OBJECTIVE

Junior Frontend Developer with hands-on MERN stack experience building responsive React/Next.js applications, REST API integrations, dashboard UI, authentication flows, and reusable components. Seeking a frontend/MERN role where I can ship clean user interfaces, improve performance and accessibility, and use AI tools responsibly for debugging, documentation, test-case planning, and faster delivery.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, , React.js, Next.js, React Router, , Context API,

UI / Styling: Tailwind CSS, Bootstrap, DaisyUI, shadcn/ui, Material UI, Framer Motion, responsive design

Backend / MERN: Node.js, Express.js, MongoDB, Mongoose, REST API, CRUD, JWT, better/Auth

Forms / Data: Axios, Fetch API, React Hook Form, filtering, search, error handling

Tools / Deployment: Git, GitHub, Vercel, Netlify, VS Code

AI Workflow: ChatGPT, Gemini, GitHub Copilot, prompt engineering, AI-assisted debugging, README writing

PRACTICAL EXPERIENCE

MERN Stack Developer Trainee - Programming Hero / Self-Led Projects Jan 2026 - Present

- Completed 800+ hours of project-based learning across JavaScript, React, Next.js, Node.js, Express.js, MongoDB, authentication, API integration, deployment, debugging, and Git workflow.
- Built and deployed 12+ frontend/full-stack projects with mobile-first layouts, reusable components, protected routes, REST API integration, clean README files, and version-controlled commits.
- Used AI tools as coding assistants for requirement breakdown, bug tracing, refactoring ideas, documentation drafts, and interview preparation while manually reviewing generated code before use.

PROJECTS

Pet Adoption Platform | React.js, JavaScript, Tailwind CSS, API Integration

Live: <https://b13-as9-pet-adoption-client.vercel.app> | **GitHub:** <https://github.com/mdabgal/b13-as9-adoption-client>

- Built a responsive pet adoption web application that allows users to browse available pets, view detailed information, and explore adoption opportunities with a clean UI.
- Implemented dynamic pet listing pages, reusable components, and fully responsive design for mobile, tablet, and desktop users.
- Integrated API data handling and improved user experience through structured layouts and smooth navigation.

Authentication App | Next.js, MongoDB, JWT, Tailwind CSS

Live: <https://as-b13-online-learning.vercel.app> | **GitHub:** <https://github.com/mdabgal/as-b13-online-learning>

- Developed a secure authentication system with login, signup, and JWT-based protected routes.
- Connected MongoDB database for user management and implemented CRUD-based backend logic.
- Ensured route protection, form validation, and session handling for secure user experience.

EduCourse - Online Course Landing & Enrollment Platform | React.js, Redux Toolkit, REST API, Stripe Mock, Tailwind CSS, React Router, Vercel

Live: <https://my-portfolio-ecru-two-25.vercel.app/> | **GitHub:** <https://github.com/mdabgal/my-portfolio>

- Designed and developed a modern personal portfolio website to showcase projects, skills, and contact information.
- Built responsive UI with clean component structure and optimized performance for all devices.
- Implemented smooth navigation and project showcase sections for professional presentation.

EDUCATION

Bachelor of Honours (Running) — National University,

2025 – Present

Bangladesh Higher Secondary Certificate (HSC) — Colorowya Bangabandhu Mohila College

Passed 2025

Certifications: Complete Web Development with MERN Stack - Programming Hero, 2025; Responsive Web Design / JavaScript / React practice certificates - freeCodeCamp or equivalent.

Languages: Bangla - Native; English - Professional working proficiency, comfortable with technical documentation, email communication, standups, and interview practice.

Soft Skills: Problem solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership, and recruiter-ready project presentation.

I hereby declare that all the information provided above is true to the best of my knowledge.
